

**University of
Technology**

Serving Education Since 1976

Program Outcomes *Of* **School of Law**

PO No.	Program Outcome
PO1	Knowledge of Law Possess a comprehensive and in-depth understanding of legal principles, particularly in the domains of Criminal Law and Human Rights Law. Demonstrate the capability to engage with interdisciplinary subjects that influence the legal framework, enabling a nuanced interpretation of laws in light of global economic, political, social, ethical, and environmental complexities.
PO2	Problem Analysis Engage in critical assessment of legal and organizational challenges through the application of case-based learning methodologies. Develop the ability to dissect multifaceted legal issues, evaluate the underlying problems, and arrive at informed, logical decisions grounded in sound legal reasoning and theoretical frameworks.
PO3	Development of Solutions Critically evaluate the disconnect between statutory provisions and their practical implementation at local, national, and international levels. Emphasize the consideration of socio-political inequalities, institutional power structures, and the lived experiences of marginalized communities while formulating viable and context-sensitive legal solutions.
PO4	Conduct Investigations of Complex Problems Utilize legal research methodologies to design and execute research projects addressing constitutional, criminal, judicial, and human rights issues. Apply a diverse range of tools and techniques while adhering to ethical standards, with the goal of contributing original insights to legal scholarship and raising public awareness
PO5	Modern Tool Usage Incorporate modern information and communication technologies (ICT) to enhance classroom learning and global connectivity. Foster interactive learning environments by integrating real-time insights from global legal professionals, thereby expanding student perspectives and facilitating innovative engagement with conventional legal concepts.
PO6	The Law & Society Analyze and evaluate diverse theoretical and practical approaches to Criminal and Human Rights Law. Promote the integration of value-based education through awareness campaigns, outreach initiatives, and educational programs aimed at addressing crime prevention and supporting vulnerable populations in various socio-legal contexts.
PO7	Environment and Sustainability Encourage students to participate in field-based and library-driven studies that align legal education with practical initiatives. Foster engagement with grassroots-level projects that promote environmental justice, sustainability, gender equity, and community-driven clean-up efforts, bridging academic knowledge with societal needs.

PO8	Ethics Demonstrate a clear understanding and application of ethical norms in all areas of legal practice. Uphold the principles of integrity, accountability, and justice, while maintaining a strong commitment to professional conduct, social responsibility, and the equitable administration of law.
PO9	Individual & Team Work Cultivate both individual accountability and collaborative skills through interdisciplinary learning experiences. Encourage participation in team-based activities, remedial sessions, and cross-disciplinary engagements to promote a cooperative and inclusive educational environment.
PO10	Communication Effectively articulate legal arguments, case analyses, and evidence-based conclusions using structured, clear, and persuasive communication. Adapt language and presentation techniques to suit varied audiences and platforms, ensuring clarity, coherence, and impact in both oral and written formats.
PO11	Project Management Develop the ability to conceptualize, plan, and manage comprehensive legal research projects with a focus on crime, justice, criminal law administration, and human rights. Demonstrate analytical rigor and organizational competence in the execution and dissemination of research outcomes.
PO12	Life-Long Learning Instill a sustained commitment to continuous learning through the application of real-world legal scenarios. Enhance students' capacity to adapt, innovate, and respond to emerging challenges by integrating case-based methodologies and critical thinking tools into lifelong legal education.

Program Specific Outcomes

	Graduate will able to Understand -
PSO 1	Acquisition of advance knowledge in the specific chosen area of specialization.
PSO 2	Demonstrate the ability to analyze and address legal and social issues through the application of relevant laws and regulations, while upholding ethical standards and professional responsibilities essential to the practice of law.
PSO 3	Apply ethical principles and professional standards in legal practice, while engaging in experiential learning and empirical research to strengthen analytical skills and promote informed application of law.

Program Educational Objectives

PEO 1	Provide rigorous and integrated academic study in the specific areas of law in order to gain advanced insight into the subjects.
PEO 2	To equip students with a strong understanding of contemporary legal developments across key areas of law and enhance their research and communication skills to effectively address and present solutions to modern legal challenges.
PEO 3	To develop students' analytical and problem-solving abilities for the effective application of Human Rights and Criminal Laws, enabling them to address complex legal issues with originality and informed judgment in professional and national settings.
PEO 4	Demonstrate knowledge of teaching methods through the subject on 'Teaching Pedagogy' thereby enabling them to enter the teaching profession.
PEO 5	To foster socially responsible legal professionals by promoting legal aid, awareness initiatives, and research ethics, while supporting the holistic development of students.

School of Law

LL.B. Program Outcomes

PO 1	Knowledge of Law - Aptitude to manifest wide and extensive knowledge in the field of Law including Criminal Laws and Human Rights Laws and comprehension with other disciplines related to the field of knowledge with which the students can interpret and explain the nature of Criminal laws/Human Rights Laws in the face of global, political, economic, social, legal, ethical, and environmental challenges.
PO 2	Problem Analysis - Practical exposure can be given to students through Case based learning/critical learning tool. It enhances skills of students in analyzing the organizational problems and learning to arrive at critical decisions. They learn to apply concepts, principles and analytical skills to solve the real situation problems.
PO 3	Development of Solutions - Analyze the gap between Laws in existence and grassroots realities in local, regional and global contexts with attention to issues of power, privilege, and marginalization.
PO 4	Conduct Investigations of Complex Problems - Design, conduct, analyze and present findings using legal research methodology with diverse research tools, ethical research skills and methods in order to create knowledge and awareness on issues relating to subject of Constitution, Judicial Process, Criminal Laws, Human Rights Laws etc.
PO 5	Modern Tool Usage - With the use of modern ICT technology students' learning in class room marches towards digitization. Getting connected to people through e-mode who are located all over the world and who bring real-time insights from their industries, their customers, happenings in their local place and environment. This sparks different ways of thinking as well as cover the conventional material.
PO 6	The Law & Society - Compare and critique the different approaches, perspectives, and models in criminal law/human rights and execute the value education in generating awareness about crime and youth/vulnerable section of the society, human rights education etc. in diverse settings.
PO 7	Environment and Sustainability - Manage field and library studies, to bridge the gulf between the theory and practice, the students have to be encouraged to take up step for Environmental Sustainability, Gender Equality, Clean-up activities through experiential projects/Live Projects/Grass Root Projects in Surrounding Area.
PO 8	Ethics - To understand and apply ethical principles in legal practice, demonstrating integrity, professional responsibility, and commitment to justice in all legal proceedings
PO 9	Individual & Team Work - To internalize the core curriculum, working in teams and developing team spirit is essential. Interdisciplinary learning across outside the faculty would help students in equipping with these skills through Remedial classes, Interactive

	Sessions, Law learning activities.
PO 10	Communication- Communicate ideas, reviews, analyses, and provide solutions with evidence to different problems in language learning and communication.
PO 11	Project Management - Developing critical approach in research writing in the area of crime, criminal law and criminal justice and administration as well as Human Rights Laws.
PO 12	Life- Long learning - Practical exposure can be given to students through Case based learning/critical learning tool. It enhances skills of students in analyzing the organizational problems and learning to arrive at critical decisions. They learn to apply concepts, principles and analytical skills to solve the real situation problems.

Program Specific Outcomes

	Graduate will able to Understand -
PSO 1	Acquisition of advance knowledge in the specific chosen area of specialization.
PSO 2	Demonstrate the ability to analyze and address legal and social issues through the application of relevant laws and regulations, while upholding ethical standards and professional responsibilities essential to the practice of law.
PSO 3	Apply ethical principles and professional standards in legal practice, while engaging in experiential learning and empirical research to strengthen analytical skills and promote informed application of law.

Program Educational Objectives

PEO 1	Provide rigorous and integrated academic study in the specific areas of law in order to gain advanced insight into the subjects.
PEO 2	To equip students with a strong understanding of contemporary legal developments across key areas of law and enhance their research and communication skills to effectively address and present solutions to modern legal challenges.
PEO 3	To develop students' analytical and problem-solving abilities for the effective application of Human Rights and Criminal Laws, enabling them to address complex legal issues with originality and informed judgment in professional and national settings.
PEO 4	Demonstrate knowledge of teaching methods through the subject on 'Teaching Pedagogy' thereby enabling them to enter the teaching profession.
PEO 5	To foster socially responsible legal professionals by promoting legal aid, awareness initiatives, and research ethics, while supporting the holistic development of students.

School of Law

Master of Laws (LL.M.) PROGRAM OUTCOMES (POs)

PO No.	Program Outcome
PO1	Advanced Legal Knowledge Demonstrate in-depth and specialized knowledge of legal principles, doctrines, and jurisprudence within the chosen area of law, including Corporate & Commercial Law, Criminal Law, and Intellectual Property Law.
PO2	Legal Research and Analysis Apply advanced research methodologies to critically analyze legal issues, construct sound legal arguments, and contribute to scholarly discourse in specialized fields of law. .
PO3	Professional and Ethical Practice Exhibit high standards of professional integrity, ethics, and responsibility in legal practice, policymaking, and academic research.
PO4	Effective Communication Communicate complex legal concepts and arguments clearly and persuasively in both oral and written forms to diverse audiences including courts, clients, academic forums, and stakeholders.
PO5	Problem Solving and Decision-Making Identify, analyze, and resolve intricate legal problems using a combination of statutory interpretation, case law analysis, and practical strategies, tailored to specialized areas of law.
PO6	Interdisciplinary Perspective Integrate knowledge from related disciplines such as economics, political science, sociology, and technology to enrich understanding and resolution of legal issues in a globalized context.
PO7	Legal Innovation and Policy Development Critically evaluate existing legal frameworks and contribute to policy development, legal reforms, and advocacy initiatives with innovative and practical solutions. .
PO8	Lifelong Learning and Leadership Demonstrate a commitment to continuous learning and professional development, and exhibit leadership skills in academic, legal, or policy-oriented careers. .

SCHOOL OF LAW

COURSE OUTCOMES (B.A., LL.B.)

COURSE OUTCOMES- 1ST SEMESTER (B.A., LL.B.)

Course Code	Course Name	Course Outcomes
BALLB 101	English – I	Students will able to – - Recall fundamental grammar, vocabulary, and language rules. - Comprehend prose, poetry, and legal texts in English. - Use English effectively in academic and legal contexts. - Examine language structures and identify tone, purpose, and meaning in texts. - Judge the effectiveness of written and spoken communication. - Develop essays, reports, and structured arguments using appropriate legal and academic language.
BALLB 102	Political Science – I	Students will able to – - Recall key political concepts, thinkers, and constitutional structures. - Explain the nature and functions of political institutions and ideologies. - Relate political theories to contemporary governance and law. - Compare political systems, frameworks, and policies. - Assess the effectiveness of government structures and policies. - Propose political reforms or frameworks for better governance and justice. - Application Format for filing the case.

BALLB 103B	Sociology – I	Students will be able to - • Identify basic sociological terms, thinkers, and theories. • Describe how social institutions and structures influence human behaviour. • Use sociological perspectives to interpret social issues and legal implications. • Differentiate between various sociological approaches and their relevance to law. • Critically assess the role of law in social change and justice. • Formulate sociologically-informed legal arguments or policy suggestions.
BALLB 104A	History – I	Students will be able to - • Recall key events, charters, and developments in Indian legal history. • Explain the evolution of the Indian legal and constitutional system. • Link historical developments to present-day legal institutions. • Examine the impact of colonial and post-colonial legal changes. • Evaluate the effectiveness of historical legal reforms.
BALLB 105	Legal Language and Legal Writing	Students will be able to – • Students will know the applying process of the Legal Terminology. • Students will analyse about concept of Legal Maxims • Students will evaluate the Fundamental Principles of Legal Writing. • Students will be able to understand the Legal Drafting in English, Hindi or Marathi • Student will be able to create the Paragraph on Legal Topics.

COURSE OUTCOMES- 2ND SEMESTER (B.A.,LL.B.)

Course Code	Course Name	Course Outcomes
BALLB 201	English – II	• Students will be able to recall advanced grammar rules, vocabulary, and language techniques. • Students will be able to comprehend complex literary and legal texts in English. • Students will be able to apply English language skills effectively in both academic and professional legal contexts. • Students will be able to analyze the structure, style, and intent behind various English texts. • Students will be able to evaluate the effectiveness and clarity of written communication in English. • Students will be able to create coherent, well-structured essays, reports, and legal arguments using appropriate legal and academic English
BALLB 202	Political Science – II	• Students will be able to recall key political theories, ideologies, and figures. • Students will be able to explain the relationships between political institutions, law, and society. • Students will be able to apply political theories to understand the functioning of government and legal systems. • Students will be able to analyze political structures, policies, and their impact on legal systems. • Students will be able to evaluate political events, systems, and decisions from a legal and societal perspective. • Students will be able to create well-informed political proposals and reforms addressing contemporary issues in governance and

		justice.
BALLB 203B	Sociology – II	• Students will be able to recall key sociological theories, social structures, and institutions. • Students will be able to understand the relationship between society, law, and legal systems. • Students will be able to apply sociological concepts to interpret societal issues and their legal ramifications. • Students will be able to analyze social dynamics and their influence on law and policy.
BALLB 204A	History – II	• Students will be able to recall significant historical events and legal milestones in Indian history. • Students will be able to explain the evolution of legal institutions and constitutional law in India. • Students will be able to apply historical knowledge to understand contemporary legal issues in India. • Students will be able to analyze historical legal reforms and their implications for modern legal systems. • Students will be able to evaluate the impact of colonial and post-colonial legal changes in India.
BALLB 205	Law of Torts	• Students will be able to recall the basic principles, concepts, and provisions of tort law. • Students will be able to understand the application of torts in various legal contexts, including negligence and liability. • Students will be able to apply tort principles to real-world legal cases, identifying the presence of tortious conduct. • Students will be able to analyse case laws and judicial decisions in tort law to extract key legal principles. • Students will be able to evaluate tort cases

		and identify appropriate legal remedies.
--	--	--

COURSE OUTCOMES- 3RD SEMESTER (B.A., LL.B.)

Course Code	Course Name	Course Outcomes
BALLB 301	English III	Students will able to – • Remember the key techniques of summarization and argument reconstruction. • Understand how to structure communications and essays effectively, including introductions and conclusions. • Apply appropriate writing methods to produce clear, coherent essays and communications. • Analyse the effectiveness of different organizational structures and writing patterns. • Create well-supported, purpose-driven communications and essays, tailored to the intended audience and utilizing appropriate patterns of development.
BALLB 302	Political Science -III	Students will able to – • Remember the key theories and concepts in political science. • Understand the role of political theories and concepts in the development of political science knowledge. • Apply theoretical approaches to analyze political systems, behavior, and policies in real-world contexts. • Analyze the merits and limitations of different political theories and policies from multiple disciplinary perspectives. • Create multi-disciplinary analyses or solutions to political problems, demonstrating innovative thinking and the ability to synthesize diverse political theories and concepts.
BALLB 303A	ECONOMICS-III	Students will able to – • Get the knowledge of economic growth. • Gain knowledge about Micro & Macro

BALLB 304B	Optional Paper Sociology -III	Economics - Analyse the Elasticity of price, demand and supply. - Evaluate the knowledge of Economic growth of country. Optional Paper Students will able to – Remember key sociological theories and concepts. Understand the role of theories in building sociological knowledge and explaining social phenomena. Apply sociological perspectives to analyze social structures, institutions, and issues. Analyze various theoretical orientations and their application in explaining different aspects of society. Create integrative and comparative analyses that demonstrate an understanding of sociology's relationship to other social sciences, as well as its distinctiveness and interdisciplinary potential.
BALLB 304A	History IV	Students will able to – - Understand the cultural, historical, and social contexts of legal systems and apply this knowledge to legal practice and analysis. - Apply legal principles to real-world problems, demonstrate the ability to draft legal documents, and communicate effectively in a professional setting. - Analyse the impact of diversity, social structures, and ethical considerations on legal systems and decision-making processes.
BALLB 305	Contract I(General Principles)	Students will able to – Remember essential contract law terminology and processes. Understand the structure and rationale behind

		contract formation and enforcement. • Apply legal rules to fact-based scenarios to evaluate contract validity and breaches. • Analyse legal problems in contract law, interpreting facts and identifying appropriate legal principles. • Create basic legal documents, arguments, or diagrams that reflect accurate understanding and application of contract law
--	--	---

COURSE OUTCOMES – 4TH SEMESTER (B.A., LL.B.)

Course Code	Course Name	Course Outcomes
BALLB 401	English IV	Students will able to – • Recall and apply principles of clear and structured communication. • Understand the elements of strong written and oral arguments. • Apply rhetorical strategies and writing structures appropriate to the context. • Analyze the effectiveness of writing in different formats and for varied audiences. • Create clear, logical, and purpose-driven texts for academic and professional settings
BALLB 402	Political Science IV	Students will able to – • Recall key political theories, concepts, and thinkers. • Explain the role of political ideas in shaping governance and legal systems. • Apply theories to real-world political and legal scenarios. • Compare and evaluate policies and arguments using evidence.

		Develop original arguments or policy ideas using interdisciplinary approaches
BALLB 403B	Sociology IV	Students will able to – - Define key sociological theories and foundational concepts. - Describe the role of theory in building sociological knowledge and understanding society. - Apply sociological perspectives to real-life situations and issues. - Compare and contrast major theoretical approaches (e.g., functionalism, conflict theory, symbolic interactionism). - Formulate connections between sociology and other social sciences through examples and interdisciplinary thinking.
BALLB 404A	History IV	Students will able to – - Differentiate between primary and secondary sources and recall key historical evidence. - Explain cultural and societal changes across historical periods and contexts. - Apply historical knowledge to interpret the development of civilizations and cultural shifts. - Evaluate historical sources and evidence to understand diverse perspectives and human experiences.
BALLB 405	Contract II (Specific Contract)	Students will able to – - Identify key legal issues related to contracts from given fact scenarios. - Demonstrate understanding of legal reasoning in contract disputes. - Apply appropriate legal principles to resolve complex contract problems. - Evaluate fact patterns to determine relevant rules and possible legal outcomes.

		• Formulate clear, well-reasoned oral and written legal arguments based on contractual issues.
--	--	--

COUSRE OUTCOMES-5TH SEMESTER (B.A., LL.B.)

Course Code	Course Name	Course Outcomes
BALLB 501	Constitutional Law I	Students will able to – • Recall key concepts related to criminal justice, law, and constitutional law. • Describe the relationship between criminal justice and societal needs. • Apply critical analysis to evaluate the criminal justice system and its role in society. • Analyze gaps within the criminal justice system and propose relevant amendments. • Evaluate the effectiveness of judicial review in criminal law and assess the constitutionality of laws based on court criteria. • Formulate arguments on judicial review processes and constitutional law, applying criteria used by courts to evaluate criminal law.
BALLB 502	Political Science V	Students will able to – • Define key political science theories and concepts, understanding their relevance in political knowledge development. • Summarize major theoretical arguments and apply them to relevant political situations. • Use political theories and concepts to analyze current political issues and support their applications with evidence. • Compare and evaluate various policies, theories, and concepts from different

		disciplinary viewpoints. Assess the merits and drawbacks of multiple theories or policies, using interdisciplinary perspectives to support their evaluation.
BALLB 503	Family Law I	Students will able to – - Recall key concepts in family law, such as marriage, divorce, parental custody, domestic abuse, and children's rights. - Describe the historical and social contexts that have shaped modern family law and its regulations. - Apply family law principles to real-life scenarios involving marriage, custody, and rights protection. - Analyze family law issues in light of social, legal, and historical factors that influence their development. - Formulate well-reasoned arguments, both written and verbal, based on family law concepts and issues.
BALLB 504	Law of Consumer Protection and RTI Act	Students will able to – - Recall alternative forms of remedies under the Consumer Protection Act, 1986, and the Consumer Protection Act, 2019. - Explain the objectives, significance, and provisions of the Consumer Protection Act, 2019, and its role in protecting consumer rights in India. - Apply the principles of consumer protection law to analyze real-world consumer issues and remedies. - Evaluate the impact of consumer rights, including the right to safety, information, choice, and redressal, under the Consumer Protection Act. - Develop informed arguments or solutions regarding the enforcement and enhancement of consumer rights and protections under the law.
BALLB 505	Environment Law	Students will able to –

BALLB 505A	Optional Paper Cinema and Nation in India: “Exploring identity, Politics & Cultural Transformations”	- Recall key concepts and frameworks within the field of environmental law. - Describe the evolving nature of environmental law and its integration with other legal disciplines. - Apply existing environmental laws to address contemporary legal issues in environmental protection. - Analyze the complexities of environmental legal issues and evaluate new developments in environmental law. - Assess the effectiveness of environmental laws and regulations in achieving sustainability and protecting the environment. - Develop innovative legal arguments or proposals in response to emerging challenges in environmental law. Optional Paper Students will able to – - Recall key concepts related to cinema’s role in shaping national identity and cultural narratives in India. - Describe the relationship between cinema, politics, and society in the Indian context. - Apply critical analysis to examine how Indian cinema represents marginalized voices and shifting cultural ideologies. - Analyze the role of cinema in cultural transformations, especially in relation to politics and social change. - Assess the effectiveness of cinema in representing national identity and political ideologies in Indian society. - Develop interdisciplinary insights by linking cinema with history, sociology, gender studies, and political theory.
------------------------------	--	--

--	--	--

COURSE OUTCOMES-6TH SEMESTER (B.A.,LL.B.)

Course Code	Course Name	Course Outcomes
BALLB 601	Constitutional Law II	Students will able to – - Recall the concept of ‘State’ and its significance in relation to fundamental rights. - Describe the fundamental rights and the procedure for compliance, along with the writ jurisdiction of the Supreme Court and High Courts under Articles 32 and 226. - Apply the knowledge of fundamental rights to analyze legal cases and scenarios related to their enforcement. - Analyze the duty of the state and the inter-relationship between fundamental rights and directive principles. - Assess the effectiveness of fundamental rights in protecting individual freedoms and their interaction with state duties and directive principles. - Formulate legal arguments and proposals related to the enhancement of fundamental rights and their relationship with state duties.
BALLB 602	Political Science VI	- Define key theories and concepts in political science and understand their role in shaping political knowledge. - Describe and summarize various theoretical approaches, applying them to real-world political scenarios. - Apply political science theories to analyze

		current issues and support their arguments with relevant evidence. • Compare and contrast various policies, theories, or concepts within the discipline. • Assess the strengths and weaknesses of different political policies and theoretical approaches from diverse disciplinary perspectives.
BALLB 603	Family Law II (Muslim Law)	Students will able to – • Recall key concepts related to succession and inheritance under Muslim law. • Describe and compare personal laws, particularly Muslim law, and its applications. • Apply concepts of Muslim law to analyze issues related to succession and inheritance. • Analyze and compare Muslim personal laws with other legal systems. • Assess the effectiveness and fairness of Muslim personal laws in contemporary society. • Develop well-reasoned written and verbal arguments on issues related to Muslim family law, focusing on inheritance and succession.
BALLB 604A	Bhartiya Nyaya Sanhita 2023	Students will able to – • Recall the key provisions of the Bhartiya Nyaya Sanhita 2023 and its relation to criminal justice. • Explain the process of judicial review and the criteria used by courts to evaluate the constitutionality of criminal law in India. • Apply their knowledge to identify lacunas within the criminal justice system and propose necessary amendments. • Analyze social theories related to crime, justice, and deviance, and evaluate the barriers individuals face within the criminal justice system. • Assess societal views on crime against

		women, the human body, and property, and evaluate how these issues are addressed in the criminal justice system.
		Create informed arguments related to criminal law reforms and their implications on society.
BALLB 605	Company Law	Students will able to – - Recall the essential legal framework governing the day-to-day functions of companies under Company Law. - Explain key facets of Company Law, such as the roles of the Board, powers of directors, and regulations related to shareholder protection, fraud investigations, and company restructuring. - Apply Company Law principles to assess and address issues related to corporate governance, compromise, amalgamation, and shareholder rights. - Analyze the legal processes involved in the winding-up of companies and the role of regulatory bodies like SEBI in maintaining corporate governance. - Evaluate the effectiveness of Company Law provisions in preventing corporate mismanagement and ensuring the protection of minority shareholders. - Develop solutions or strategies to address challenges in corporate governance and company management, based on legal principles.
	Optional Paper	Optional Paper Students will able to – - Recall key historical events and the evolution of capital in shaping modern societies. - Explain the structural transformations of societies under capitalism, analyzing them through legal and sociological
	Capital and the	

BALLB 605 A	Making of Modern Life	perspectives. • Apply analytical tools to study the legal and sociological implications of capitalist development. • Analyze the impact of capitalism on inequality, labor, privatization, and globalization. • Critically assess the consequences of capitalist development, particularly in terms of social inequality and economic globalization. • Develop informed critiques and propose solutions to address issues arising from capitalism, inequality, and labor exploitation.
--------------------	------------------------------	--

COURSE OUTCOMES-7TH SEMESTER (B.A.,LL.B.)

Course Code	Course Name	Course Outcomes
BALLB 701	Jurisprudence	Students will able to – • Recall foundational theories and concepts of jurisprudence, including key philosophical schools and thinkers. • Describe the evolution of legal thought

		and explain the relationship between law, justice, and morality. • Apply jurisprudential theories to contemporary legal issues and problems in different legal systems. • Analyze the application and implications of various jurisprudential theories within the context of modern legal practice. • Assess the effectiveness and relevance of different jurisprudential approaches in addressing real-world legal challenges. • Develop new perspectives or propose reforms on current legal theories or principles based on jurisprudential insights.
BALLB 702	Code of Civil Procedure and Limitation Act 1963	Students will able to – • Recall the detailed procedures for redressal of civil rights and the basic principles of the Code of Civil Procedure and Limitation Act. • Explain the key aspects of filing a suit, including jurisdiction, forms, procedure, documents, evidence, and the complexities of executing a decree. • Apply the provisions of the Code of Civil Procedure to real-life cases, particularly in relation to the trial process, interim orders, and appeals. • Analyze the challenges and complexities involved in civil litigation, including issues in executing decrees and filing appeals or revisions. • Evaluate ethical, moral, and religious issues within civil procedure, recognizing how these principles affect legal practice. • Develop informed solutions to civil procedure issues, taking into account legal, ethical, and procedural complexities.

BALLB 703	Labour Law I	Students will able to – - Recall the development and judicial framework of Labour Laws, including key statutes and legal principles. - Describe the salient features of industrial disputes, the role of trade unions, and how Labour Law integrates with Human Resource Development practices. - Apply Labour Law principles to analyze industrial relations, working conditions, and HR practices within the workplace. - Analyze the procedures for industrial dispute resolution, working conditions, and the enforcement of industrial discipline. - Assess the effectiveness of current industrial relations laws and practices, considering their impact on workers and employers. - Develop strategies or proposals for improving industrial relations and working conditions, based on Labour Law principles.
BALLB 704	Law of Taxation	Students will able to – - Recall the fundamental tax accounting rules, regulations, and concepts related to taxation. - Explain different types of income and expenses, their taxability, and deductibility under various tax laws. - Apply tax principles to resolve real-world tax issues by identifying the correct taxation rules and procedures. - Analyze various tax situations, understanding the relationship between income, expenses, and their treatment under the tax law. - Assess the effectiveness and fairness of

		taxation rules and the impact of tax decisions on individuals and businesses. • Develop solutions for complex tax issues by applying relevant laws, regulations, and accounting practices.
BALLB 705	Cyber Law	Students will able to – • Recall key concepts such as cyber space, cybercrime, information technology, and internet services. • Describe different forms of cybercrimes and explain the implications of computer and cybercrimes. • Apply their knowledge to understand cyber-crime prevention strategies and human rights in the context of cyber law. • Analyze cybercrime from both a global and Indian perspective, recognizing the differences and challenges in both contexts. • Assess various strategies for preventing and protecting against cybercrimes, including legal frameworks and best practices. • Develop innovative solutions for addressing emerging challenges in cyber law and cybercrime prevention.
	Optional Paper	Optional paper
BALLB 705 A	Intensive: Conducting an Arbitration	Students will able to – • Recall the fundamental concepts of the arbitration process, including domestic and international arbitration, as well as the key provisions of the Arbitration and Conciliation Act, 1996. • Explain the arbitration process, including the steps involved in

		initiating, managing, and conducting arbitration proceedings. • Apply practical skills to simulate real arbitration proceedings, demonstrating proficiency in handling disputes. • Analyze the legal framework governing arbitration, including the Arbitration and Conciliation Act, 1996, and relevant case law. • Evaluate the effectiveness of institutional vs. ad hoc arbitration, considering the advantages and disadvantages of each approach. • Develop the necessary drafting skills for arbitration agreements and enforcement mechanisms, ensuring clarity and legal compliance.
--	--	---

COURSE OUTCOMES-8TH SEMESTER (B.A.,LL.B.)

Course Code	Course Name	Course Outcomes
BALLB 801	Administrative Law	Students will able to – • Recall the nature, development, and fundamental principles of administrative law, including the role of administrative control and protection of individual rights. • Explain how administrative law functions to regulate the powers and liabilities of administrative authorities, safeguarding citizens from abuse. • Apply administrative law principles to real-world scenarios, addressing issues of administrative power, rights protection, and liability. • Analyze unresolved administrative law issues and predict how courts may resolve such matters by reviewing relevant case

BALLB 801A	Optional Paper Forest Rights Act 2006 & Panchayat	law and judicial methods. • Evaluate the effectiveness of current administrative law principles and practices in protecting individual rights and holding authorities accountable. • Develop informed perspectives on potential reforms or improvements in administrative law to enhance its application in modern legal contexts. Optional Paper • Recall the key provisions of the Forest Rights Act, 2006, and the role of Panchayati Raj Institutions in forest governance. • Explain the legal and social implications of the Forest Rights Act and the importance of community participation in forest governance. • Apply the legal mechanisms for the recognition and redressal of rights to real-world scenarios, focusing on forest-dwelling communities. • Analyze the historical injustices faced by forest-dwelling communities and examine the role of decentralized governance in addressing these issues. • Assess the effectiveness of the Forest Rights Act in empowering forest-dwelling communities and strengthening decentralized governance structures. • Propose strategies for improving the implementation of the Forest Rights Act, ensuring better community participation and rights recognition.
BALLB 802A	Bhartiya Suraksha Nagarik Sanhita 2023	• Recall key procedures of criminal prosecution in India, including arrest, bail, and trial rights. • Explain the process of compelling appearance, production of evidence, and the rights of accused persons such as the

		right to a speedy trial and legal representation. • Apply procedural rules regarding arrest, bail, and legal representation to given factual scenarios. • Analyze the role and function of prosecuting authorities and the safeguards provided to accused persons under the law. • Evaluate the effectiveness of procedural safeguards in ensuring fair trials and protection of individual rights. • Propose practical solutions to enhance procedural fairness and access to justice within the criminal justice system.
BALLB 803	Labour Law II	Students will able to – • Recall laws related to industrial relations, social security, and working conditions in the labour sector. • Explain key issues like labour welfare, wage problems in the private sector, and their broader implications. • Apply legal principles to address real-world labour disputes, including those related to industrial discipline and enquiry procedures. • Analyze the effectiveness of current labour laws in ensuring fair working conditions and social security. • Evaluate policies and legal frameworks aimed at resolving labour welfare concerns and promoting industrial harmony. • Design practical approaches to improve labour law implementation and industrial relations practices.
BALLB 804A	Banking Law	Students will able to – • Recall the foundational principles and regulatory framework governing banking and insurance law. • Explain the structure and operations of

BALLB 804B	Optional Paper Insurance Law	various banking sectors and insurance services, including their legal implications. • Apply legal knowledge to practical situations in banking, insurance, and financial services. • Analyze the roles and responsibilities of banks and insurers in financial transactions and dispute resolution. • Evaluate legal issues related to banking operations, compliance, and risk management. Optional Paper Students will be able to – • Recall the historical origins and key international conventions that shape insurance law. • Explain the legal theories and frameworks governing insurance, including their connection to human rights. • Apply international insurance law principles to real-world scenarios, including cross-border and domestic claims. • Analyze the relationship between insurance law and human rights, especially in the context of policy enforcement and claims. • Evaluate how international and domestic insurance laws interact in disputes and foreign investment contexts. • Propose legal solutions or policy improvements for addressing international insurance challenges and rights-based issues.
BALLB 805	Clinical Paper I – Alternate Dispute	Students will be able to – • Recall the key principles and methods of

	Resolution (ADR)	ADR, including arbitration, mediation, and negotiation. • Explain the role and procedure of ADR mechanisms in resolving disputes outside of traditional court systems. • Apply ADR methods by observing and reporting proceedings in Lok Adalats, Family Courts, and Tribunals. • Analyze real ADR cases and distinguish between different dispute resolution techniques based on their practical observations. • Evaluate the effectiveness of ADR in delivering timely and fair justice, based on field experience and case outcomes. • Compile detailed records and reflective reports on ADR proceedings and propose improvements to existing ADR practices.
--	-------------------------	---

COURSE OUTCOMES-9TH SEMESTER (B.A.,LL.B.)

Course Code	Course Name	Course Outcomes
BALLB 901	Public International Law	Students will able to – • Recall the origins and key concepts of the international human rights framework and public international law. • Explain the theories that justify international legal norms and how rights are asserted and protected under them. • Apply international legal principles to assess cases of human rights enforcement and violations. • Analyze the interaction between domestic and international legal systems in shaping legal obligations. • Critically evaluate conflicts and harmonies between international treaties and national laws.

		Propose legal arguments or policy reforms to strengthen the enforcement of international law within domestic jurisdictions.
BALLB 902A	Bhartiya Sakshya Adhiniyam 2023	Students will be able to – - Recall the foundational concepts and classifications of evidence (Sakshya) under the Act. - Explain the relevance and admissibility rules applicable to different forms of evidence in court procedures. - Apply legal provisions to evaluate the admissibility of specific evidence, such as documents and witness testimony. - Analyze the legal standards for relevance, burden of proof, and special categories like dying declarations. - Evaluate the credibility and admissibility of dying declarations and other exceptions within judicial proceedings. - Construct arguments and assess evidence in hypothetical legal cases following the updated provisions of the Act.
